

ISO 45001 Lead Implementation

Why Should You Attend?

The PECB ISO 45001 Lead Implementer is a five-day training course that aims to equip you with the competence to establish, implement, manage, and maintain an occupational health and safety management system (OH&S MS) in accordance with [ISO 45001:2018](#) requirements and guidance. This training course aims to provide an in-depth understanding of ISO 45001 requirements, as well as the best practices and approaches used for the implementation and subsequent maintenance of an OH&S MS. The ultimate ambition of this training course is to enable you to create the conditions for a safer workplace.

The training course is followed by the certification exam. If you pass, you can apply for the “PECB Certified ISO 45001 Lead Implementer” credential. [IAS accredited](#) and internationally recognized, the “PECB ISO 45001 Lead Implementer” certificate validates your competence to implement an OH&S MS based on the requirements of ISO 45001.

Who Can Attend?

- Individuals responsible for maintaining and improving the workplace safety
- Occupational health and safety officers, consultants, and advisors
- Professionals wishing to acquaint themselves with PECB’s IMS2 Methodology for implementing an OH&S MS
- Individuals responsible for maintaining the conformity of OH&S MS to ISO 45001 requirements
- Members of OH&S teams
- Individuals aspiring to pursue a career as OH&S MS implementers, consultants, or officers

Learning objectives

By the end of this training course, the participants will be able to:

- Gain a comprehensive understanding of the concepts, approaches, methods, and techniques used for the implementation and effective management of an OH&S MS
- Acknowledge the correlation between ISO 45001 and other standards and regulatory frameworks
- Gain the ability to interpret the requirements of ISO 45001 in the specific context of an organization
- Develop the necessary knowledge and expertise to support an organization in effectively planning, implementing, managing, monitoring, and maintaining OH&S MS
- Acquire the expertise to advise an organization in implementing OH&S MS best practices
